Experience the Innovation

• Green and Healthy

No chemicals required when polishing marble, it can reduce the polluted water discharge and protect the workers and owners.

• Easy

With water only, easy to operate, no extra training or experience needed.

• Fast

Available to skip 200# to achieve high gloss if necessary.

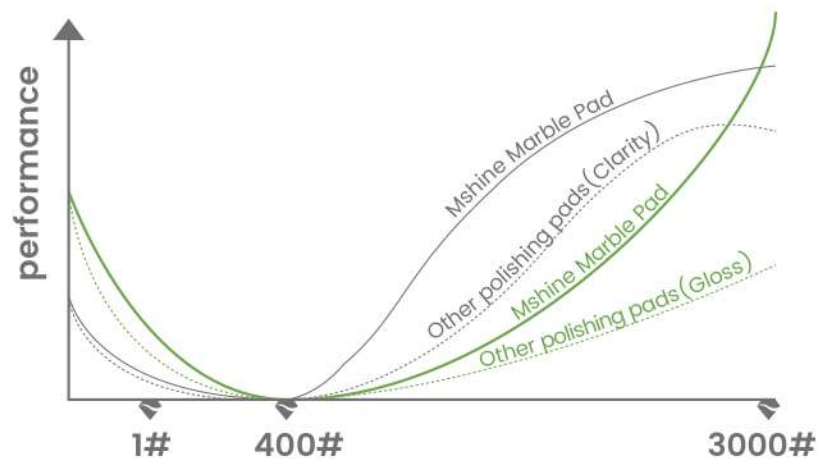

• Longer-lasting

Not only the lifetime lasts longer but also the shine will stay longer than chemical way.

• Better

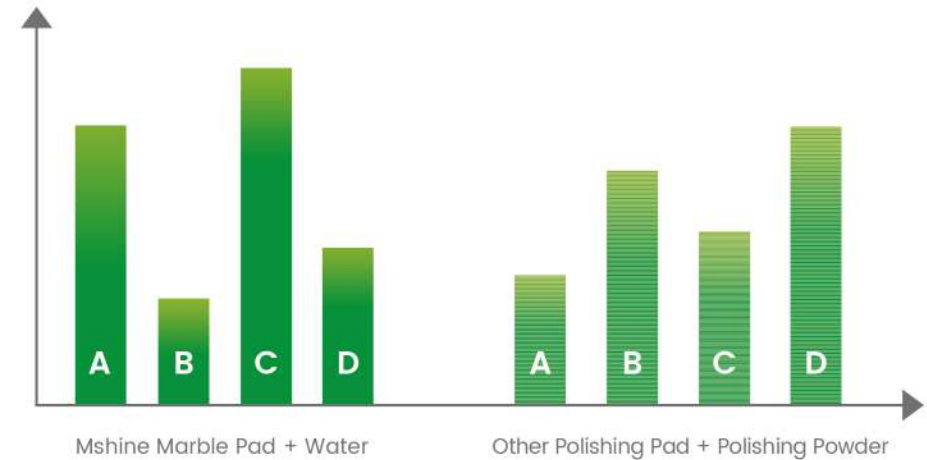

The average gloss can achieve 85-110, and the clarity will be 90-99 on marble. The clear mirror-finish look will be left without orange peels look.
